2. Online Hotel Room Booking System

Supports hotel search, room availability, booking, payments, reservation management, and responsive design

The image displays the Aureum Stays hotel booking website. The top navigation bar includes the logo, links for Rooms, Why Us, My Bookings, and Contact, and a Book a Room button. The main banner features the text "BOUTIQUE HOSPITALITY, BOOKED IN MINUTES" and "Find your stay, beautifully simple." Below this, a search bar allows users to enter check-in and check-out dates, the number of guests, and the room type. A "Search Rooms" button is provided. The "Rooms & Suites" section lists various room types with their respective prices and availability. A modal titled "Complete Your Booking" is shown, detailing the selected room (Deluxe Twin) and the guest information (Jordan Reyes). The modal also includes fields for payment details (card number, expiry, CVC) and a "Pay \$129 & Confirm Booking" button.
